

Ninesprings Walk Yeovil 1 mile Grading Accessible

This walk can be started from the Ninesprings Cafe; there are plenty of car parking spaces including some Blue Badge Spaces in the prepayment pay car park (BA20 1QZ).

There are several benches all with backs and arms at reasonable distances along this walk. This walk is all on tarmac pavements and level apart from one small bridge. Accessible facilities are available at the cafe.

1. Exiting the cafe with the hill facing you, turn left and follow pathway. There is a wooden bridge but is covered with safety netting so is easily accessible.
2. The path then continues through some trees and at the end of this area turns right and keeping the children's play area on our left the path then runs alongside the lake. There are benches at either end of this part of the walk.
3. There is a large gate which opens outward at the end of this part of the walk. After exiting the gate you are back at the point of the walk just before the bridge, continue on back to the cafe and car park.
